Welcome to
a family of 7000+ ironhackers

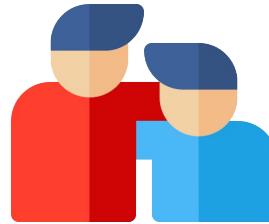

You are now part of the Ironhack Family

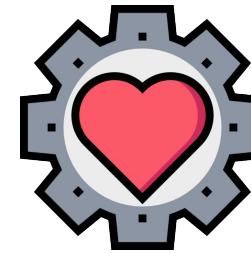

CAN-DO ATTITUDE IS THE WAY WE ROLL

Positivity, determination, and grit will get us closer to our goals. We believe that a positive attitude will be a key factor in achieving success during and after the Bootcamp.

LOVE PEOPLE AND THEIR STORIES

We listen to our students to better help them. Where do they come from? Where do they want to go? How are you feeling and how can we help?

DRIVEN BY PASSION ABOVE ELSE

We know that every step we take, no matter how small, can make a great impact on others' lives. This responsibility fuels us every day.

Our Approach to Learning

Zero to Job ready in 9 weeks.

Condensed educational experiences.

No grades, we learn for learning.

Collaboration & Creativity

At Ironhack, we create a community and culture that embraces creativity and collaboration.

Outcomes focused

We will push you to prepare your portfolio and CV from the beginning. We will train you for interviews. Our goal is to get you job ready!

Our Classroom culture

Integrity

We are our work, be honest!

Show up on time

Be present in class, please refrain from any work outside the scope of the class

Accountability

We are our actions, ask for help

Provide help to others

Put in time outside of class to be successful

Support

Be supportive of the skill level, goals and aspirations of others

We do everything in our power to facilitate growth

Give constant, constructive feedback

A photograph of two men in an office setting. They are both smiling and laughing. The man on the left has a beard and is wearing a grey t-shirt. The man on the right also has a beard and is wearing a dark t-shirt with an IronHack logo. They are sitting at a desk with a laptop and some papers. There are plants in the background.

Meet our none Education Team!

Munique Martins

Campus Lead & Program Manager

She can help you with:

- Any non technical issue/doubts you have during the bootcamp
- First point of contact in case of any COVID doubt or information

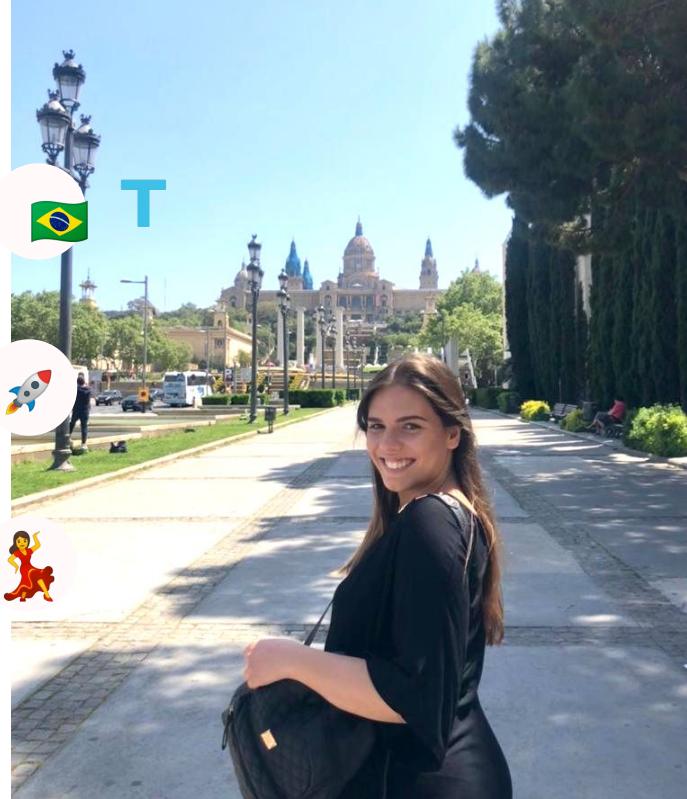

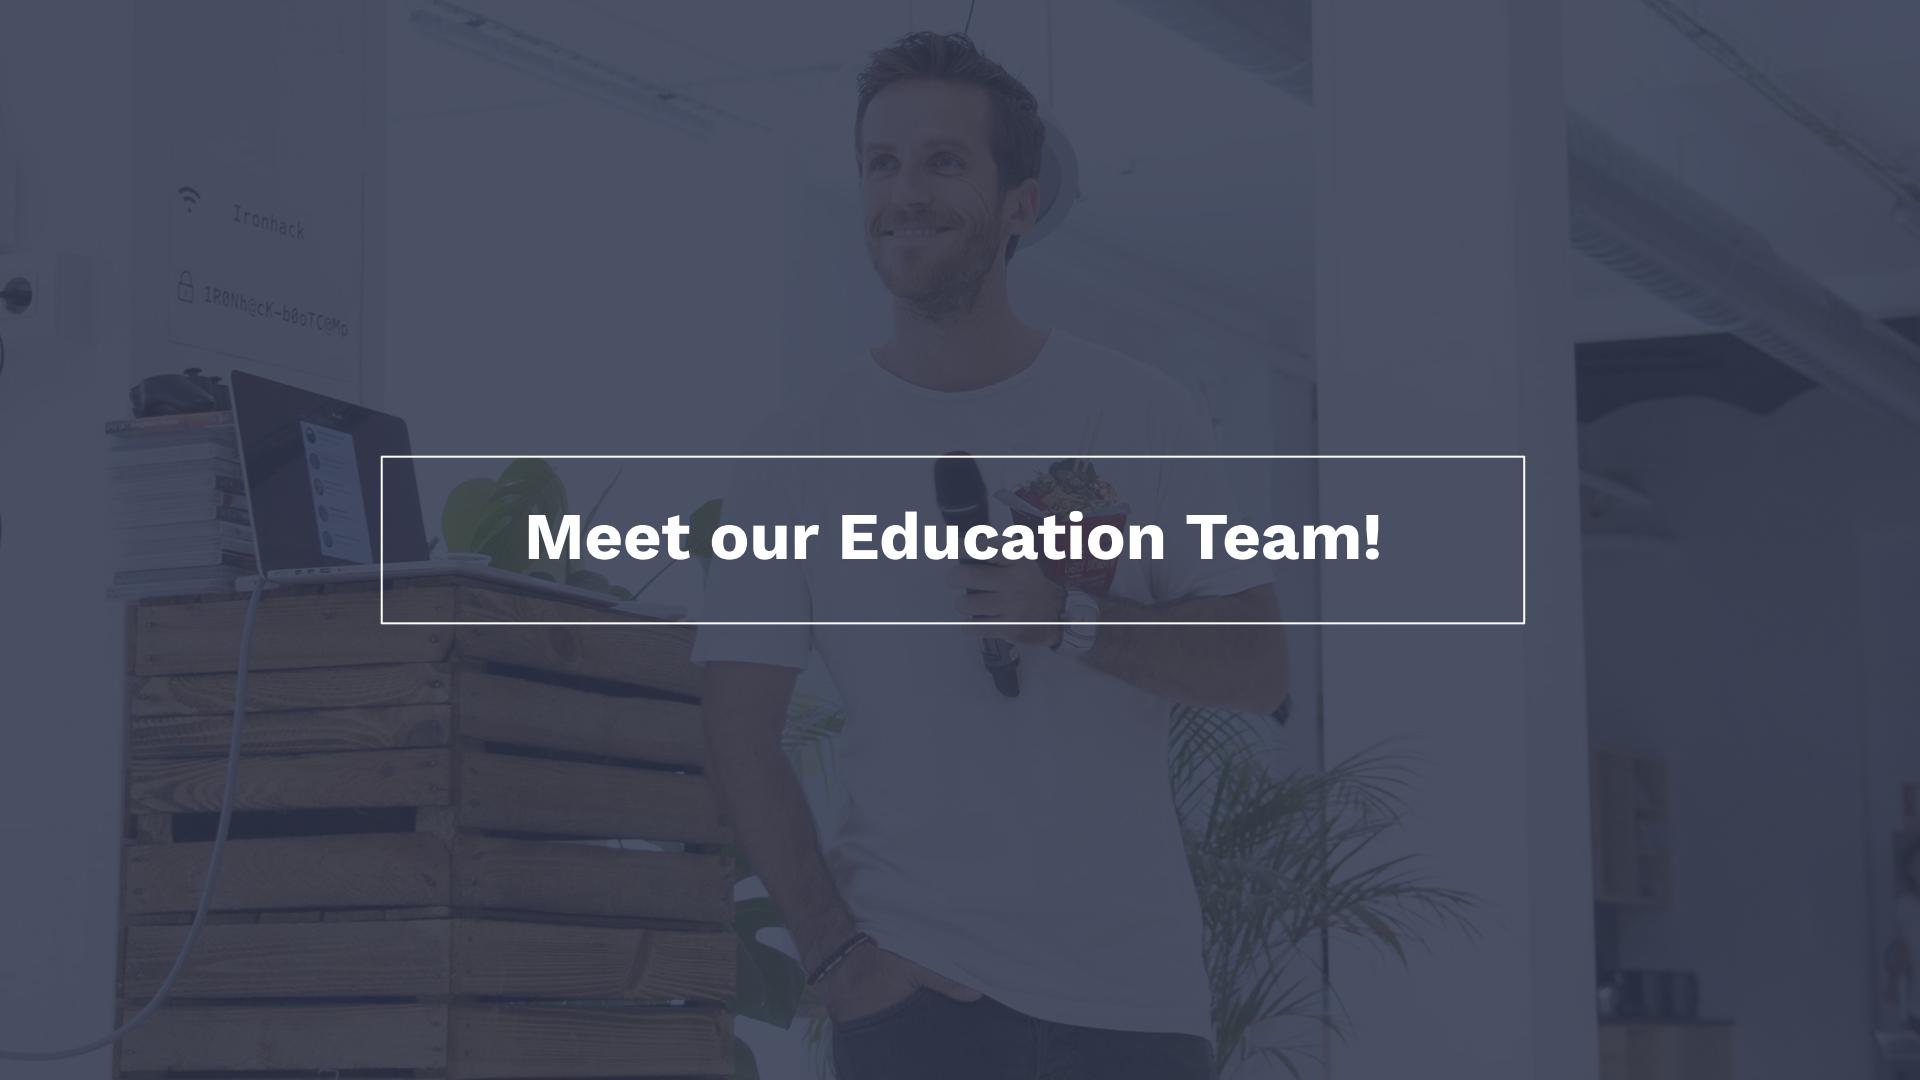

Catarina Costa

Outcomes Manager

She can help you with:

- Making the bridge between you and your future job, preparing you to find the most exciting job/company/project to work in.
- Help you be the best version of yourself and be prepared for the after bootcamp life

A photograph of a man with a beard and short hair, smiling at the camera. He is wearing a light-colored t-shirt and holding a tray with various food items, including a sandwich and some chips. The background shows a modern office environment with a computer monitor displaying the Ironhack logo, a keyboard, and some plants.

Meet our Education Team!

David Henriques

Data Analytics Lead Teacher

About me: I am a fully certified nerd. Computer games, board games, sci-fi, you name it. My background is in maths (BS) and computer science (PhD) and I've worked both on the ground and in management in data analytics for the past 10 years in multiple countries and companies. Most importantly I have a wonderful 3 year old daughter that I talk about way more than what everyone would like.

About my role: My job is to make sure than in 9 weeks you are prepared to take on the world of data analytics. This is not just about technical skills but also about community, mindset and business integration.

Something you wouldn't guess about me:

I've lived in 5 countries, but somehow I always end up returning to base :)

Miguel Braga

Web Development Lead Teacher

About me: I've been working as a software engineer since 2006 and developed apps in Portugal, Ireland, Spain and Denmark. I recently worked as a Front-end developer for a music startup and was a SCRUM Master at Vodafone for over a year.

About my role: I will help you to change your lives through code, at the end you'll be in love with JavaScript.

Something you wouldn't guess about me: When I'm bored I like to watch cat videos on Instagram.

José Pereira

Data Analytics Teacher Assistant

About me: I am Nature lover and presence seeker. I have a background in Biology and about half a year ago tired of my lifestyle in a Laboratory talking with bacteria and plants I decided to take the leap into a career change with Ironhack's Data Analytics bootcamp.

About my role: I am here to support the Lead Teacher in the classes and, most important, to support you during the assignments, projects and everything related to coding or other daily activities.

Something you wouldn't guess about me:

Despite my Rock n Roll lifestyle my biggest passion is awareness and meditation.

Lúcia Duarte

Web Development Teacher Assistant

About me: I have a background in Film and I've done terrible Portuguese comedies && worked with people from Game Of Thrones. Decided to do the Web Development bootcamp after one year of working in Digital Marketing.

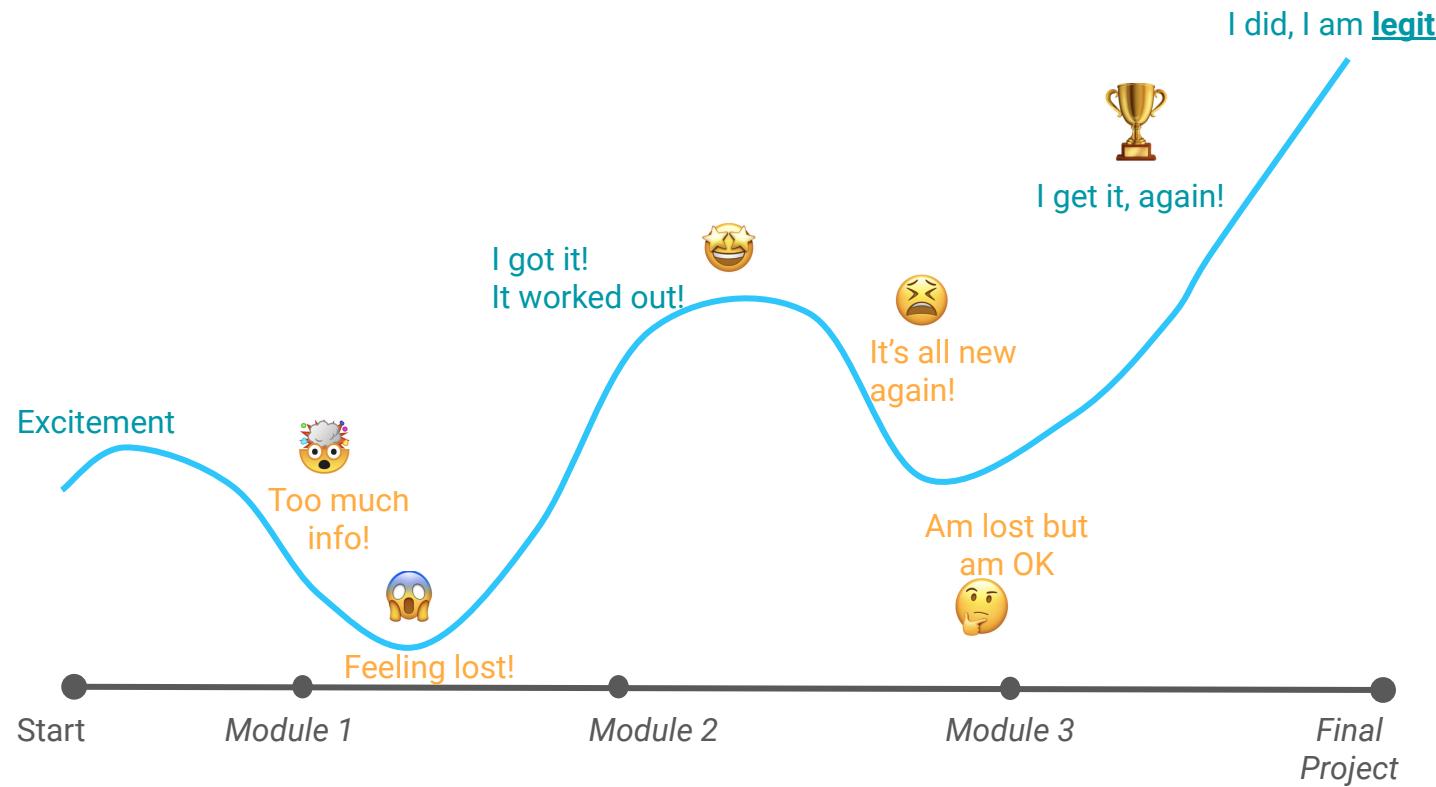

About my role: I am here to support the Lead Teacher in the classes and, most important, to support you during the assignments, projects and everything related to coding or other daily activities.

Something you wouldn't guess about me:

I like Frozen so much that my final project at Ironhack was called Let It Grow.

Bootcamp accurate emotional documentation

Covid - 19

**Students and
Teachers safety is
our priority**

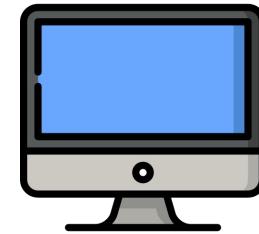

WASH YOUR HANDS ON ARRIVAL

We know it sounds basic but this is super important to make sure we keep a clean and safe environment.

ALWAYS WEAR A MASK

Wearing a mask while inside campus is absolutely mandatory. Don't worry, we will make enough breaks along the day so that you can go outside and get some fresh air.

DON'T SHARE DEVICES

Please don't share any devices with your teachers and peers. We have got you covered with several different digital tools to support you.

Starting Hours:

- Data Analytics: 09:15 - 18:15
- Web Development: 09:30 - 18:30

Lunch Breaks:

- Data Analytics: 12:15
- Web Development: 13:00

In case of suspicion:

If you wake up feeling unwell (sick, not lazy!) please stay home! We will provide the necessary support for you to keep up with the content. By coming to Campus while feeling unwell you could be jeopardizing everyone else's experience and endangering their health.

If you feel unwell along the day:

Let a Teacher know as soon as possible. We will find a confined space for you to be while we contact Saude 24 and follow their instructions.

Confirmed case:

Your class will migrate to a remote environment until either everyone is tested negative by the Portuguese Health authorities or until we finished a quarantine period (this decision will be taken with the support of the local health authorities).

Some of the Digital Tools we can use:

VSCode Live Share

Live Share enables your team to quickly collaborate on the same codebase without the need to synchronize code or to configure the same development tools, settings, or environment.

Zoom

There are plenty others and we will have the chance to explore them but those will be the core ones for our support in class

Hybrid Environment

If you are forced to stay at home for more than one day you will be move to a remote environment. What does this mean?

The teacher will keep teaching on Campus and you will follow through Zoom, you will have a designated Teacher Assistant which will act as your spokesman inside class.

We will keep supporting your needs as a student through this remote environment.

Heden Santa Apolónia

Based in iconic central Lisbon districts, Heden is a collection of creative hubs combining sustainable and innovative coworking and event spaces alongside an active cultural and wellness programme.

Workspace Access

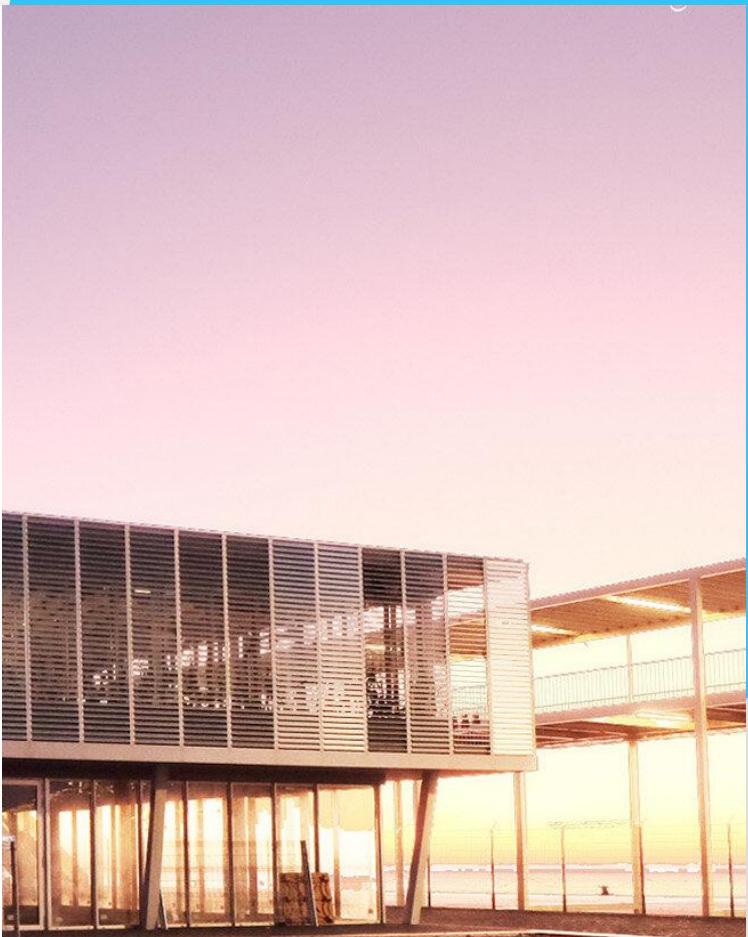

Currently you will not have any access card to the workspace so the access are limited during the weekend on Saturday from 10 am to 5 pm and on Sundays it will be closed. We will follow up on this subject soon.

Food & Beverages

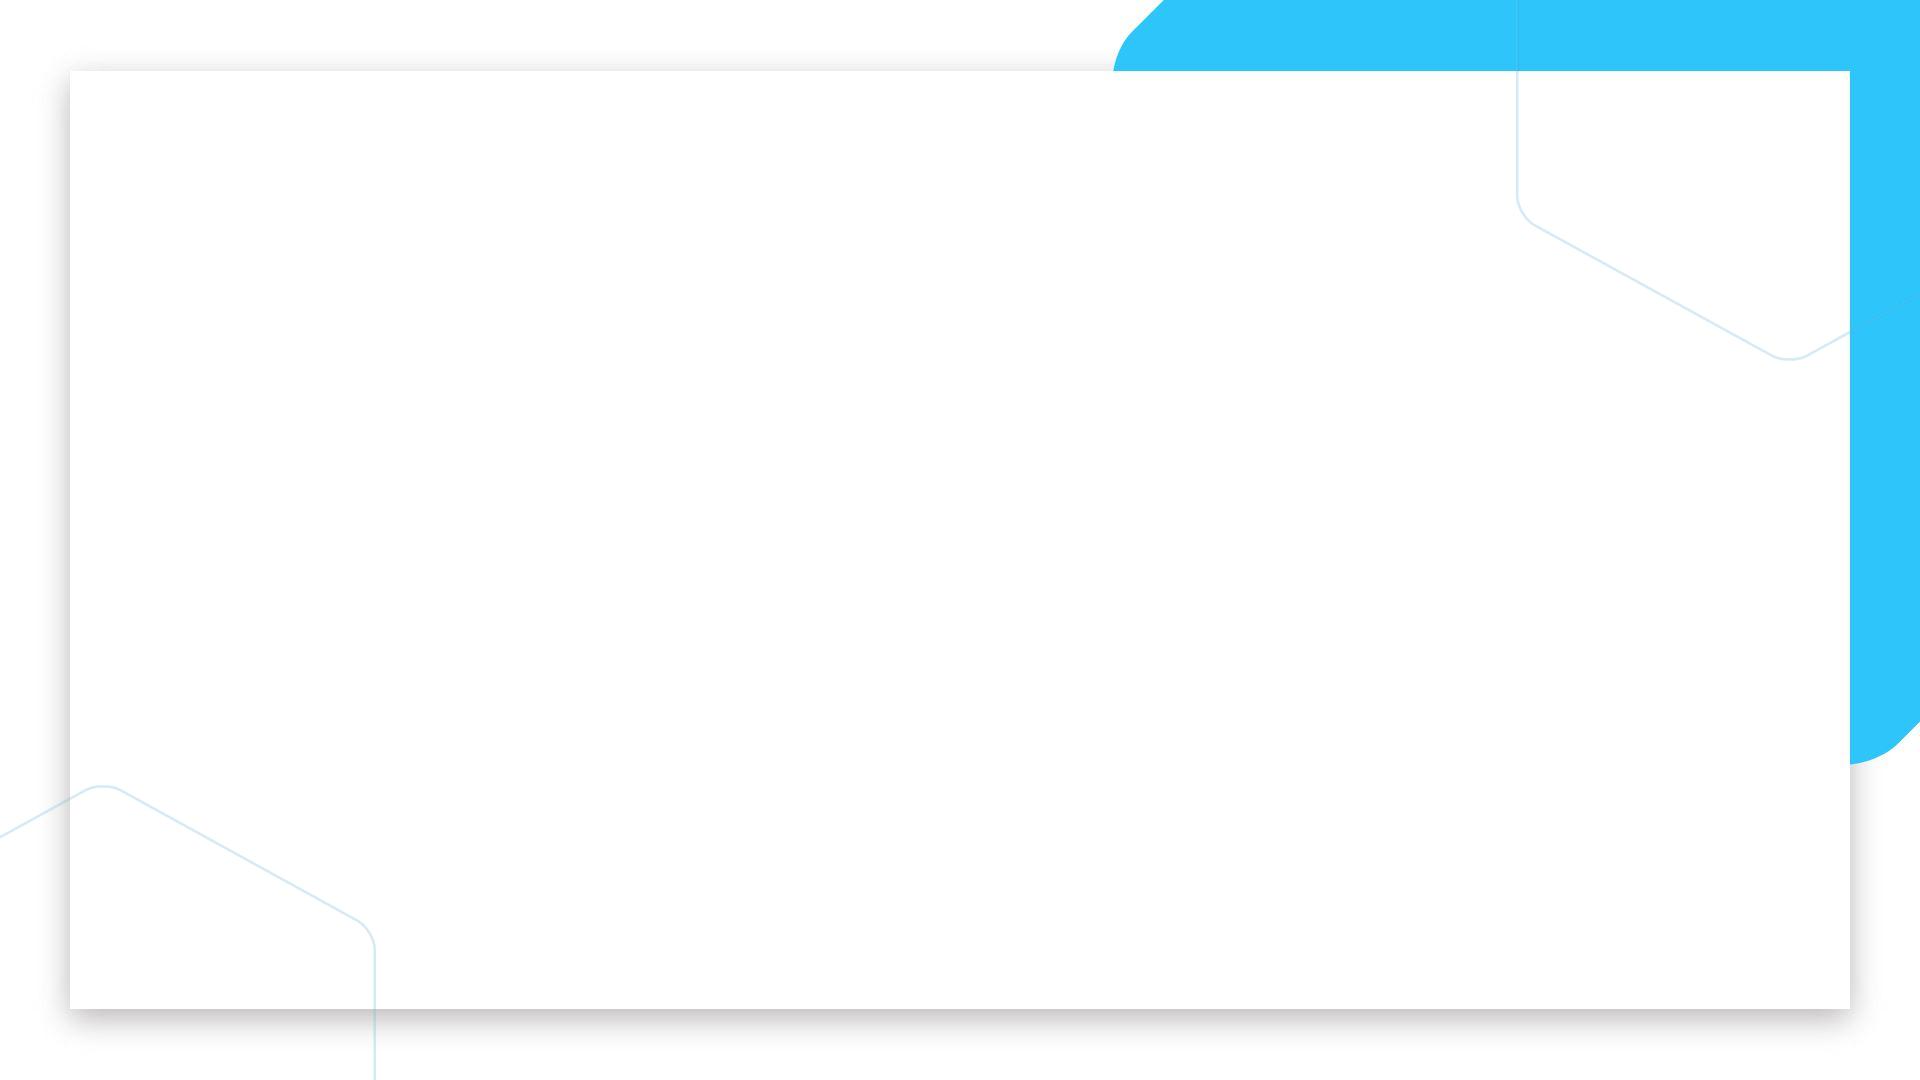

You can always eat in the designated areas but don't forget to do your dishes. Alcohol is not allowed with the exception of events organized by the Staff. We highly disencourage open containers inside classrooms and will not be responsible for any damages. **Always do your dishes!**

Turn off the lights

Be conscious about the environment!

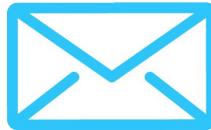

SLACK CHANNELS

Make sure to be on Slack!
We use it mostly for the daily communications and to reach out to the general community

E-MAIL

Munique will be your main point of contact for non "in class" matters:
munique.martins@ironhack.com

IN PERSON

You can always approach a staff member for things you need. We are always happy to help!

CODE OF CONDUCT DURING THE BOOTCAMP

It is mandatory to fully respect the requirements of Ironhack's Code of Conduct to assure the best possible experience for all Ironhack students.

The student will be immediately expelled if one or more of the following cases are met:

- Abusive behavior towards other students and/or Ironhack employees;
- Break national and/or local laws;
- Non compliance with COVID safety measures
- Damage Ironhack property;
- Steal or rob inside campus;
- Skip three (3) or more classes without proper warning/justification;
- Any form of plagiarism is detected either in labs or projects.

We take your feedback very seriously, which is why we send surveys via email/slack to evaluate our performance. We are talking about educational quality.

Your feedback should be:

Constructive

When giving feedback, always ensure that it's **constructive** and helps the individual grow or to create improvement.

Action - Oriented

Always try to provide an **action step with your feedback**.
How would you solve it?

Frequent

You will have the opportunity to provide feedback at **multiple points in the course**.

In order to graduate you need to:

- Complete and present all your projects
- **Follow the code of conduct**
- Miss no more than 3 classes.
- Be late no more than 20% of classes (over 10 mins after the class start is considered late).

Once you graduate you will get a digital certificate via accredible you can use to share your new skills

In order to be eligible for career placement services you need to:

- Have your LinkedIn, CV and Portfolio/Github approved by the Outcomes Manager.
- Attend at least one one-on-one session with the Outcomes Manager.
- Attend mandatory workshops during Career Week.
- Can't be delayed more than 20% of the total number of classes

Welcome to a great community

- **Work HARD**
- Be comfortable not knowing everything
- Be willing to make mistakes
- Be patient and supportive with others
- Be resourceful and adaptive when solving problems.
- Spend the necessary time to finish all the homework

Thank you

Let's get started!
